

# Madonna di Campiglio, Pinzolo, Folgarida Marilleva

SkiingItaly.net

With 140 lift facilities and 380 km slopes, **Skirama Dolomiti Adamello-Brenta** is one of the major ski carousels to the South of the Alps.

The Skirama Dolomiti ski resorts are: Madonna di Campiglio and Pinzolo in Val Rendena, Folgarida-Marilleva, Peio and Passo Tonale in Val di Sole, Ponte di Legno, Andalo-Fai della Paganella, Monte Bondone and Folgaria-Lavarone.

Skirama Dolomiti Adamello-Brenta offers the possibility to ski from November through April, thanks to the height of the slopes (up to 2.5 thousand metres a.s.l. at Madonna di Campiglio and to 3 thousand metres a.s.l. at Passo Tonale) as well as to its top class snow making technology.

**Ski area Madonna di Campiglio** is the most known and exclusive ski area in the West Dolomities. Madonna is excellently connected with the ski resorts Marilleva and Folgarida and the three resorts together have 47 lifts and 130 km of ski runs, with a capacity of more than 3,100 people per hour, 50,000 sq m of snowboard park and 40 km for Nordic skiing. The lift system allows for free movement all over the mountains, and they connect with the neighboring resorts of Folgarida and Marilleva. The variety of its mountain surroundings mean that in winter it is possible to ski over countless kilometers of runs, up to an altitude of 2600 meters and with different degrees of difficulty. What's more, you can set out from the center of the town and return there without ever removing your skis. The resort has good cross country possibilities – there are a lot of charming tracks in the wonderful surroundings of Campo Carlo Magno.

**Madonna di Campiglio (mt. 1550 m)** - the pearl of the Brenta Dolomites - a very famous, stylish and traditional ski resort located in the stupendous valley between the Brenta Dolomites and the glaciers of Adamello and Presanella. It has many shops, fashion boutiques, pubs, restaurants and an excellent nightlife.

---

**Ski area Pinzolo** a well-known tourist resort located only 10 km from Madonna di Campiglio. It is famous for its rapid and modern ski lift facilities, that take skiers to Doss del Sabion at an altitude of 2,100 meters, Pinzolo itself has 40 kilometers of groomed slopes and together with Madonna di Cam-

piglio and Marilleva - Folgarida the total length becomes an amazing 120 kilometers. Snow is guaranteed all season long. The runs - which are all above medium difficulty - are also suitable for beginners, while the more demanding skiers will find the right slopes for improving their technique.

**Pinzolo (800 mts a.s.l.)** - a typical mountain village located at the foot of the Brenta Dolomites. Together with Madonna di Campiglio (free shuttle bus) it is a lively tourist center with very rich après ski life. There are bars, typical mountain restaurants and pizzerias. Pinzolo offers also other winter activities - cross-country ski tracks, skating, dog sledging.

**Folgarida Marilleva** - two winter sports centers for ski total, and with a wide selection of lodgings – often located right on the slopes. Folgarida and Marilleva feature 27 quick, modern ski lifts, and 32 slopes (including 50% light, 36% medium, and 14% difficult) with a total of 50 kilometers of slopes!

These two winter sport centers offer total ski enjoyment, with floodlight slopes for evening skiing – a true paradise for alpine skiers and snowboarders. Because of the piste connection with Madonna di Campiglio, this large-scale ski region features a total of 120 km of slopes with a breathtaking view of the majestic Brenta Dolomites
